

Shramika Poojary

Java Developer

shramikapoojary62@gmail.com | +919987161562 | [LinkedIn](#) | [Github](#) | [my-portfolio](#)

SUMMARY

Java Developer with strong fundamentals in Java, Spring Boot, Hibernate (JPA), and REST API development. Hands-on experience in designing, coding, testing, and debugging Java-based applications through projects. Worked with Spring Boot, MVC architecture, MySQL databases, and Git-based version control. Familiar with API testing using Postman and collaborative development practices. Eager to learn, follow clean coding standards, and contribute as a Java Developer in a professional environment.

EDUCATION

- SIES College of Arts, Science & Commerce (Autonomous), Nerul June 2025 - Present
Master in Computer Science
- J.K College of Science & Commerce, Ghansoli July 2022 -April 2025
Bachelor in Computer Science, CGPA: 9.34

SKILLS

- Programming Languages: Java, SQL
- Web Development: HTML, CSS, JavaScript,
- Frameworks: Spring, Spring Boot, React.js, Bootstrap
- Database: My SQL
- Tools: Postman, Git, Github, Eclipse
- Concepts: Object-Oriented Programming
- Soft skills: leadership, Time management, problem-solving, communication

PROJECTS

- EventVerse - College Event Booking system
Technologies: Java, Spring Boot, HTML, CSS, Bootstrap, JavaScript, MySQL,
 - Designed and developed RESTful APIs for managing event categories, events, bookings, users, and payments using Spring Boot
 - Implemented object-oriented design principles and layered architecture
 - Worked on backend logic, database design, and API testing using Postman
 - Implemented role-based authentication and authorization, end-to-end event booking workflow where users browse events by category, book events, make payments, and receive tickets.
- ShopCircle - Multi Vendor Marketplace System
Technologies: Java, Spring Boot, React, Bootstrap, JavaScript, MySQL
 - Built a full-stack e-commerce system with Spring Boot backend and React frontend.
 - Developed RESTful APIs to support user operations such as add to cart, checkout, and order history.
 - Integrated JWT-based authentication and role-based authorization for secure access.
 - Designed MySQL database schema and mapped entities using JPA/Hibernate.

ACHIEVEMENTS

- **Certificate of Merit – 19th Avishkar Research Convention (Zonal Round)**

Awarded by the University of Mumbai for Presenting the SecureSHE research app project in the Humanities, Languages, and Fine Arts (UG Level) category. Selected for the Final Round of the Inter-Collegiate Research Convention 2024 (Thane West Zone).
